March 27, 1988 Medal Auction Realizes $104,000

CAL's second auction sale of medals--one of the largest ever offered in this country--realized a record amount, in excess of $104,000.

Three large consignments of decorations, which lead off the sale, attracted wide interest, both from mail bidders and an enthusiastic group of floor bidders. The sale took place at the Metropolitan New York Numismatic Convention.

Despite the fact the rarest item in the sale, the Polish Order of Virtuti Militari Grand Cross First Class (lot 124) did not meet its reserve of $10,000, most decorations found excellent bidding.

The Polish Order of the White Eagle Badge, Star and Sash set sold for $2,750, in excess of its pre-sale estimate.

One of the most popular lots was the Abraham and Straus Charge Coin of 1899 (with letter dating the piece); lot 345 sold for $137.50.

The Richard Byrd Special Medal of Honor by National Geographic Society (lot 468) brought $2,750.

A Lincoln Centennial Plaque by Victor Brenner was a bargain at $211.50 (lot 429); but other large Lincoln plaques, lot 844 at $440 and 853 at $368.50, were very strong bids.

Olympic material sold well, as did a small group of fraternal badges. Good foreign did well, as well as exposition material. Washington items were off slightly, spoons were only moderate.

Among the strong buyers this time were institutions; national and art museums were heavy buyers.

Rare pieces from the restored Polish Republic born after World War I, of the Government in Exile during World War II and of the Polish People's Republic are offered. From the Orders of the White Eagle and Virtuti Militari to the rare Grunwald Cross and War Defense Medal of 1939 (only recently issued by the People's Republic), this section will offer something for every level of collector interest. Reference numbers are taken from the definitive book just published on this subject, *Polish Orders, Medals, Badges and Insignia, Military and Civilian Decorations,* by Zdzislaw P. Wesolowski, 404 profusely illustrated pages, published in Miami in 1986. (We can supply at $30.00 per soft cover copy.)

The insignia offered here was never awarded, and is one of perhaps six complete sets made by the Warsaw State Mint!

UNIQUE W. GREAVES & SONS MEDAL

809. (Baker 538) W. Greaves and Sons Washington Medal (previous 1850); 1-inch (25.4mm) copper backed with lead. Listed in Baker in brass; this is a thin copper specimen of quite excellent workmanship. Nude bust Washington right; one line legend above: exported solely by; 2-line legend below: W. Greaves & Sons Sheaf Works. The piece is accompanied by an envelope from Philadelphia numismatist Henry Chapman in which it was lot 907 in the Parsons sale of June 1914 (where it sold for $3.75—a price higher than an 1895 proof set in the same sale!) The present piece obviously is a very rare piece of Washingtoniana. While there is some wear on Washington's bust it would grade F-VF. Unique! Since no others are known! An exceptional opportunity for the Washington specialist! $1,000-1,500

Rulau and Fuld in their recent work on Washington medals state that a cast was in the Johns Hopkins collection—the only traceable specimen—from a saw blade bolt! The Chapman envelope here states copper on tin. It is the present cataloger's opinion this is a copper electro (electroform) backed with lead—a more appropriate practice than use of tin.

AMERICAN PATRIOTIC SOCIETY INSIGNIA

Since 1783, many patriotic orders and societies have come into existence in the United States. Many of these base their membership on descent from civil or military leaders of the colonial era, of the Revolution or the subsequent wars of the United States. The insignia of such organizations in many cases are objects of great intricacy and beauty, although they are little known to most numismatists. In this sale, Collectors' Auctions Ltd. presents an exceptionally fine selection of these colorful insignia. Many are described or illustrated in *American Orders and Societies and their Decorations,* by Jennings Hood and Charles J. Young. This remarkable book was published in 1917 by Bailey, Banks and Biddle, Philadelphia manufacturers of such insignia and the only source of information about many of the more obscure issuing groups. Many of these were issued before the US provided medals for its servicemen, and one cannot look at the glittering golds and enamels without wishing that government awards exhibited this quality of design and craftsmanship.
